APEX NCAA FOOTBALL T-3 DATA REPORT

SEPTEMBER 3, 2026 · LATE RECOVERY / RECONCILIATION

SCHEDULED EXECUTION MISSED — THIS IS NOT AN ON-TIME T-3 CLAIM

Intended T-3: 2026-09-03T15:00:00-04:00

Actual recovery: 2026-09-03T18:40:01.459760-04:00

Canonical slate: 14 games

T-3 positions created: 0

APEXRIGOR.COM

1. RECOVERY IDENTITY

This report reconciles a scheduled T-3 that did not complete successfully. The original event attempted one valid living-authority write, then encountered 13 duplicate source-import constraint failures. Its later PASS label was invalid because the stage payload was empty and materialization was not part of the sealed success receipt.

2. LAWFUL PRE-CUTOFF EVIDENCE RETAINED

The pre-cutoff controller plan proves 14 resolved canonical games. A FanDuel hydration receipt was captured at 2026-09-03T18:59:15.402557Z—before the intended 15:00 ET cutoff—and matched 9 games. It is retained only as timestamp evidence; this recovery creates no wager and changes no market.

3. PERISHABLE FACT DISPOSITION

Roster, availability, quarterback, lineup, weather, and other perishable states without a retained source event/as-of timestamp at or before 15:00 ET are marked UNRECOVERABLE_AS_OF_T3. Current or post-cutoff observations are not backfilled into the missed T-3.

4. POINT-IN-TIME SAFETY

OUTCOME_READ_COUNT=0 · POST_KICKOFF_AS_PREGAME_COUNT=0 · UNSUPPORTED_BACKFILL_COUNT=0 · LIVING_AUTHORITY_WRITE_COUNT_FROM_RECOVERY=0 · FINAL_POSITION_COUNT=0

5. SEALED T-2 NON-MUTATION

The already-sealed September 3 T-2 issuance remains authoritative and unchanged. SHA256: 206e29bdc0684f4fb28c38e4d31fef213044b0e2b5921244ee6c95f59bf577f5
