NCAA FOOTBALL — T-3 INPUT RECONSTRUCTION

September 5, 2026 | Actual T-3 reconstruction completed 11:07 AM ET

Original forecast-information cutoff: 9:00 AM ET. This is an explicitly requested retained-input reconstruction, not a new provider refresh and not an on-time T-3 claim. The original T-3 and T-2 receipts remain unchanged.

103 game states reconstructed. 99 prior completed 2026 games were available to the corrected team-state reader. The original fitted models, feature orders and probability-calibration parameters were not changed. The registered 12-hour result lag was retained.

OPEN DATA LIMITATION: the source authority contains no 2026 drive-stat rows. Historical drive-state estimates and registered priors remain in use; no drive statistics, quarterback status or weather observations were invented. This report does not certify absence of forecasting bias.
